This training course is broken down into 2 sections

1. **Keeping children safe in education (Part 1)**
2. **Annex A: Further safeguarding information**

LEARNING OUTCOMES

- Learn crucial safeguarding information that all staff need to know
- Understand your role and your responsibilities
- Understand how to deal with contemporary issues such as FGM and Prevent Duty

ABOUT THIS COURSE

Our online KCSIE course allows for easy reporting, helping you keep tabs on who has and who hasn't read part 1 of the guidance.

Best of all, we give it away for free to any educational institute that purchases any other Health & Safety or HR Compliance training course.

We decided to create this online version of the document when we were approached by a school that wanted an easier recording method for staff that had read the guidance. Signing a piece of paper wasn't enough for them to prove that their staff had read and understood the contents of the document.

After passing this onto the development team we were delighted to launch a module in which users were tested on their knowledge and the completed result was recorded within the suite. One comment from one school created our KCSIE course, now 3 years on we are proud that we are able to help schools easily adhere to their mandatory requirements.

You can find out more about KCSIE 2020 changes here.
