

Ethics Policy

Supporting Charities and Nonprofits

We already work with a large number of organisations in the charities sector, and it's important to us to support their commendable work across a range of not-for-profit activities. We love working with organisations striving to do good, and we'll never knowingly provide our products and services to organisations that support harmful activities towards people, animals or the planet.

Giving Back

As part of our commitment to actively support charitable organisations, we're pleased to be able to offer two distinct options for non-profits:

1. A twenty percent discount across our entire training library
2. A sum equating to twenty percent of annual training order value back as a donation at the end of the year

All we need to get started is a copy of your charity's registration number. If you would like to speak to someone about training for a non-profit, you can get in touch with Mai - Mai.duong@ihasco.co.uk

iHasco Charitable Partnership

At present, iHasco is involved in actively supporting the Bracknell, Wokingham & Ascot Districts Branch of the Samaritans. Staff have opted to donate a percentage of their monthly wages to support this cause and we have hosted numerous charity days to raise funds and help them meet their annual target! Read more here:
