Environmental Awareness Training

For more information, visit our [Environmental Awareness Training](#) webpage.

COURSE CONTENTS

This training course is broken down into 3 sections

1   Global change

2   How workplaces are affecting the environment

3   How individuals can improve their carbon footprint

LEARNING OUTCOMES

✅ Learn how you can reduce your impact on the environment as an individual

✅ Fully understand the impact that workplaces have on the environment

✅ Have a better understanding of climate change, human impact, and finding the right balance

ABOUT THIS COURSE

This online, **CPD Accredited** & **IOSH Approved** training course is designed to introduce staff and management at all levels to the issue of environmental responsibility, as well as looking at what can be done to reduce negative environmental impact from our day to day activities.

We all know that our environment is **under threat** and that changes **must be made to protect it**. In this Environmental Awareness training programme, we make it clear that it's not just big companies that have a responsibility to make changes - or indeed companies that deal with hazardous materials or waste disposal - it's something that concerns **absolutely all of us**.

This programme looks at the problems our environment is facing. It looks at our **responsibilities** and **wider environmental awareness**, as well as covering the various **legislation** that relates to environmental responsibility for organisations of all types and sizes.

Equip your staff with the knowledge needed to make your business more environmentally friendly, with our Environmental Awareness Training course!
